## Front desk app

The screenshot shows a software interface for bowling center management. On the left, there are navigation icons for Lanes, Transfer, Teams & Bowlers, Reports, and Settings. The main area is divided into two lane sections (1-2 and 3-4) with status indicators (Open, Close, Dis) and control buttons. A right-hand panel shows a status table with columns for Lane, Status, League, Credit, Remaining, Bowlers, and Time Off. At the bottom right, there is a pricing table and system status information.

11:01 AM to 02:00 PM - Rule: Weekday	
Per Game	5.00 \$
Per Minutes	1.00 \$
Half Sessions	2.50 \$
Full Sessions	10.00 \$

## Optional Bowlers Console

A Complete Solution for Bowling Centers

## Scorer Computer Setup

Our Smart Scorer Computer is easy to set up, keeping installation costs very low. Only three cables (Power, HDMI, and LAN) are needed to get it running. Plus, it uses standard components that are easily replaceable if needed.

## No Extra Costs

You also don't need any special monitors to use our system. ANY standard TV or monitor with an HDMI input will work perfectly.

## Advertising without Disruption

Increase your center's revenue with our non-intrusive advertising. It complements the bowling experience, ensuring ads don't distract players. Enjoy a seamless blend of entertainment and revenue.
